partnerships. Funding is being made available through state targeted response (STR) to the Opioid Crisis and state response (SOR) grant. Both funding sources have a 2 year funding cycle. Please see presentation for further details. One of the outcomes for the department will be to develop toolkits for a variety of stakeholders and targeted audiences.

The second half of the presentation addressed Drug Medi-Cal Organized Delivery System (DMC-ODS). There are 40 out of the 58 Counties that have submitted their implementation plans to participate in the DMC-ODS pilot program. California was the first with the 1115 waiver. There are now 4 other states with 1115 waivers approved (New Hampshire, Washington, Pennsylvania and Alaska) and 2 states pending (Arizona and Michigan). The benefits of the DMC-ODS pilot program is the services allotted i.e. multiple levels of residential treatment, case management, narcotic treatment programs expansion, withdrawal management, recovery services, physician consultation, partial hospitalization and additional medication assisted treatment.

**IV. 10:15 AM Medication Assisted Treatment (MAT) in Correctional Settings, Los Angeles County (45 mins)**

*Holly A. McCravey, Director of Addiction Medicine Services, LA County Dept. of Health Services*

**Presentation:**

**[Medication Assisted Treatment \(MAT\) Presentation](#)**

The presenter gave a clear presentation on why to treat addiction in jails, the best practices and what has been learned from previous experience. Some of the reasons for providing addiction treatment to inmates is to promote sobriety upon release, to ensure addiction treatment needs are integrated into primary care and mental health services, to provide addiction treatment that follow the national standards by ASAM, provide seamless transition to assist in the community reintegration, and balance custody needs and addiction treatment needs. After being granted a technical assistance grant (CHCF) and doing research by visiting other facilities in state and out of state, the County learned that the best practice is MAT. 76% of detainees released on MAT continued their care post release and received at least one dose of MAT. Another key ingredient is collaborative partners. Los Angeles County has a partnership with the Sheriff's Dept., Dept. of probation, Office of Diversion and Reentry (ODR), and Department of Public Health-Substance Abuse Prevention and Control (DPH-SAPC). Los Angeles County's future plans include withdrawal management expansion, Methadone maintenance to continue community dosages, provide buprenorphine to jail inmates with opioid use disorders, (DHS-CHS) apply to become Opioid Treatment Providers, and (DHS-CHS) to make all food and drug administration (FDA) medication for addiction available to inmates under ASAM levels of care.

**V. 10:45 AM Overview of Key Budget Items of the New Administration (30 mins)**

*Amy Jarvis, California Department of Finance*

*Aaron Edwards, California Department of Finance*
